PROFILE

Final-year Information Science Engineering student with hands-on experience in **software development, debugging, and cloud deployment**. Proficient in **Java, SQL, AWS, and React.js** with a strong grasp of **data structures, algorithms, and web technologies**. Passionate about developing **scalable, secure, and user-friendly applications** while continuously learning emerging technologies. Seeking opportunities to contribute as a **Software Engineer / Application Developer** in a growth-oriented environment.

EDUCATION

Visvesvaraya Technological University

Bagalkot, India

Bachelor of Engineering in Information Science

Expected - 2026

- **Coursework:** Data Structures, Algorithms, OOP (Java), DBMS, Operating Systems, Software Engineering

B.V.V.S Polytechnic (Autonomous)

Bagalkot, India

Diploma in Computer Science

Jul 2023

- Gained a strong foundation in **software development, networking, and database management**.

SKILLS

- **Programming Languages:** Java, SQL, C, Python (Basic)
- **Web Technologies:** HTML, CSS, JavaScript, PHP, React.js
- **Cloud & Databases:** AWS Cloud, MySQL, Cloud Computing Concepts
- **Tools:** Git, VS Code, XAMPP/WAMP
- **Core Competencies:** Software Design & Architecture, Debugging, Troubleshooting, SDLC, Agile Development, Product Development, Cloud Deployment, Accessibility, Network Security
- **Soft Skills:** Problem Solving, Team Collaboration, Analytical Thinking, Adaptability, Commitment to Innovation and Excellence

CERTIFICATIONS

- SQL (Advanced) – HackerRank
- Software Engineer Intern (DSA, SQL, Problem Solving) – HackerRank
- Cybersecurity Virtual Internship – Deloitte
- Azure Web Application Firewall – Microsoft Learn
- 24-Hour Hackathon Participant – BEC 2024 – Built working prototype within 24 hours

EXPERIENCE

Winsoft Solutions

Hubli, India

Web Development Intern

Feb 2023 – Mar 2023

- Developed responsive web applications using **HTML, CSS, PHP, and MySQL** under Agile SDLC.
- Debugged and optimized web modules, improving performance by **30%**.
- Conducted unit testing and enhanced database reliability for production deployment.

PROJECTS

Faculty Advisor Management System | HTML, CSS, JS, PHP, MySQL |

July 2024 – Sep 2024

- Built a **role-based web portal** for faculty, advisors, and students.

- Automated updates for **CGPA, attendance, and activity points**, improving management efficiency by 50%.
- Integrated performance analytics and optimized SQL queries, reducing data retrieval time by 45%.

Organico – Multilingual Awareness Portal | HTML, CSS, JS, PHP, MySQL |

Jan 2023 – April 2023

- Led a 4-member team to develop a multilingual portal promoting sustainable agriculture.
- Deployed modules on **AWS Cloud**, ensuring scalability and availability.
- Improved system efficiency by 40% via front-end code optimization.
- **3rd Prize – WisoTech-2K23 (National Level)** for innovation and technical excellence.

ACHIEVEMENTS

- **1st Prize – Poster Presentation:** AI-Powered Defense Against Deepfake Threats, BEC 2023
Presented innovative AI-based solutions to combat deepfake threats.
- **3rd Prize – Multilingual Awareness Portal**, WisoTech-2k23
Developed and showcased a web platform promoting sustainable agriculture.
- **Participant** – 24-Hour Hackathon, BEC 2023
Collaborated in a team to design quick, functional solutions under time constraints.
